

CURRICULUM VITAE

R. Scott Goldsberry, RSP Occupational Health and Safety Consultant

PROFILE

Mr. Goldsberry is a highly qualified and experienced Occupational Health & Safety Consultant. He has demonstrated, through a successful 30+ year career, his experience in auditing businesses for unsafe work practices, conditions, and violations of regulatory safety standards to a diverse client base.

He has worked with clients in the fields of Construction, Healthcare, Logistics and Manufacturing. His other areas of proficiency include employee training in forklift operations, workplace safety, accident investigation, defensive driving, bloodborne pathogens, and first aid/CPR/AED. He is an OSHA authorized instructor and has provided training in OSHA's Outreach Program for General Industry and Construction Industry 10 & 30 hour employee outreach classes.

Mr. Goldsberry's accuracy in identifying unsafe work practices, conditions and violations of applicable safety standards, coupled with his ability to formulate sound expert recommendations for corrective actions in his audit reports are exemplary.

PROFESSIONAL EXPERIENCE

2017 – Present **Americana Safety Associates, LLC**, Savannah, Georgia
Occupational Health and Safety Consultant

- Provides on-site safety audit consulting services to business and trade industry clients to ensure their compliance with all applicable federal and state, national consensus standards and industry best practices. Develops customized workplace safety plans and programs, and specialized employee safety training workshops.
- Provides employee safety training services to business and trade industry clients. Services include forklift operator, supervisor, train-the-trainer certification classes; aerial lift training (basket & scissor lifts); skid steer safety training and jockey truck safety training classes.

2010 - Present **Private Practice**, Savannah, Georgia
Occupational Health and Safety Consultant

- Work with the clients of PEO's, staffing companies, insurance carriers and captives and other clients in the Construction, Healthcare, Logistics and Manufacturing industries in the Southeastern States of Georgia, Florida, North & South Carolina, Tennessee and Alabama.
- Work with the management, supervisors and employees to develop safety programs that help reduce the frequency and severity of injuries. Provides assistance to reduce workers' compensation insurance premiums and costs associated with employee occupational injuries and illnesses.

2003 – 2010 **Independent Consultant**, Savannah, Georgia
Occupational Health & Safety Consultant

- Worked with the clients of several insurance captives and standard insurance companies. These client companies and municipalities had locations in Georgia, South Carolina, Alabama, Florida, California, Colorado, Kansas, Michigan and the New England states.
- Developed a team concept towards developing programs that would reduce and/or eliminate risks. Clients of the captives and insurance companies included city and county governments, manufacturers, school systems, service companies, and healthcare organizations (hospitals, nursing homes and home healthcare organizations). These efforts helped reduce workers' compensation costs. Multi-line knowledge – property and casualty.

2001 – 2003 **Managed Comp – Monoline Workers Compensation Carrier**, Savannah, Georgia
Senior Health & Safety Consultant

- Provided assistance to sixty (60) diverse companies and municipalities throughout Georgia and South Carolina, working together with city and county governments, manufacturers, school systems, service companies, and healthcare organizations (hospitals, nursing homes and home healthcare organizations) to develop safety and health programs to reduce the number of losses incurred by their employees and their associated workers' compensation costs.

1998 - 2001 **The EBI Companies/Royal Sun Alliance – Monoline Workers Compensation Carriers**, Albany, Georgia
Senior Loss Control Consultant

- Worked with thirty-one (31) diverse companies at seventy-five (75) locations throughout Georgia, Alabama, and the Florida panhandle. Provided management and supervisory personnel in city and county governments, school systems, manufacturers, service companies, and healthcare organizations (hospitals, nursing homes and home healthcare organizations) with training to develop essential skill sets and awareness that is critical to the supervisor's ability to contribute to the safety, accident prevention, and risk management of their organizations. Multi-line knowledge – property and casualty.

1996 - 1998 **Ayres Corporation – Aircraft Manufacturer**, Albany, Georgia
Safety Director

- Develop safety programs that helped reduce the costs associated with workers' compensation. Conducted general and specific employee safety training in the area of OSHA regulation compliance. Direct modifications to machinery and work stations to create a safe and productive work environment. Assembled and trained emergency response teams to handle medical and hazardous materials (HAZMAT) emergencies. Worked with area medical staff to develop a working partnership between the employer, employees, insurance company, and medical personnel.

1979 - 1993 **Hallamore Corporation – Multi Line Corporation**, Holbrook, MA
Operations Manager/Safety Manager

- Managed and administered the day-to-day operations in all divisions over my course of employment. Reduced workers' compensation costs, developed safety programs and held weekly safety training. Solid background in Department of Transportation (DOT) regulations and OSHA regulatory standards

AVAILABILITY

Mr. Goldsberry is available for assignments in the Southeastern US through Americana Safety Associates, LLC.
